

BOARD REVIEW DRAFT

Sponsor Packet V2 Tier Structure

May 2026

Make the sponsor ladder match the real work.

Packet v1 was a first pitch artifact. It has not been circulated as a promise to sponsors.

The v2 structure reconciles that draft with Haley's sponsor tracker, the May 7 development discussion, and the reality that meaningful sponsorship begins above casual support.

The goal is not more tiers for their own sake. The goal is a ladder where each level has a clear role, lower tiers are still valuable, and the top tier retains benefits that are genuinely special.

\$1,000

Recommended formal sponsorship floor, counted as cash, approved in-kind value, or a combination of both.

Five lanes, four formal sponsor tiers.

Friend of North Star

WORKING ASSUMPTION

\$150 or under
\$1,000

Supporter lane outside the formal sponsor ladder. Light recognition may be appropriate, but sponsor-package benefits remain an open approval question.

Heritage Partner

\$1,000-\$2,499

First formal sponsor tier. Real sponsor recognition and basic event access, without naming or lead-sponsor control perks.

Preservation Leader

\$2,500-\$4,999

Middle sponsor tier. Stronger recognition and more event access than Heritage, but still no event-level control.

Keystone

\$5,000-\$9,999

Major sponsor tier. Prominent recognition and limited association, filling the gap before Presenting.

Presenting Sponsor

\$10,000+ or
signature event

Lead sponsor tier. The only tier that should carry event-level control benefits, pending final approval.

Separate recognition, access, association, and control.

Recognition Public thanks, name/logo visibility, program listing, website recognition.	Access Tickets, invitations, or sponsor attendance opportunities. Final counts remain bracketed.
Association Sponsor name connected to a program, event, season, or visible body of work.	Control Naming, remarks, press inclusion, banner placement, and event-level prominence.

Recommended rule Lower tiers may receive recognition, access, and limited association. Presenting Sponsor is reserved for control benefits unless the board explicitly approves an exception.

Approve the architecture, keep exact benefits bracketed.

- 1 Approve Friend of North Star as a supporter lane below formal sponsorship, with final recognition boundaries still open.
- 2 Approve \$1,000 cash or approved in-kind value as the formal sponsorship floor.
- 3 Approve Heritage, Preservation, Keystone, and Presenting as the formal sponsor ladder.
- 4 Reserve control benefits for Presenting Sponsor unless an exception is explicitly approved.
- 5 Allow sponsor-facing packet drafting to continue while final ticket counts and exact perk language remain bracketed.

Still pending

Final ticket counts, Friend recognition boundaries, exact benefit menu by tier, and deliverability review of v1 draft perks.
